### Recent legislative changes to superannuation

The following are some key changes to superannuation legislation which have taken effect recently.

#### End of the work test for certain contributions for people aged up to 74

Prior to 1 July 2022, you had to meet a work test (or alternatively qualify for a work test exemption) if making most types of voluntary superannuation contributions while aged 67 to 74<sup>1</sup>.

From 1 July 2022, super funds can accept all contributions from people in this age group without any work test requirements. Note that existing contributions caps still apply.

However, if you wish to claim a tax-deduction for personal contributions made while aged 67 to 74<sup>1</sup> you must still satisfy the ATO's work test or work test exemption in the financial year of your contribution.

#### Increase in maximum age to use 'bring-forward rule'

The bring-forward rule may allow you to make up to \$330,000 in non-concessional contributions at one time, which is above the standard cap of \$110,000 per financial year (based on 2022–23 non-concessional contributions cap).

Prior to 1 July 2022, the bring-forward rule was available if you were under age 67 any time during a financial year. From 1 July 2022, access to the bring-forward rule was extended to people aged under 75<sup>2</sup> any time during a financial year.

It is important to note that your non-concessional contributions cap (including under the bring-forward rule) may also be reduced based on your total superannuation balance.

#### Increase in maximum releasable amount under the First Home Super Saver Scheme

The First Home Super Saver (FHSS) Scheme allows eligible people to release eligible voluntary contributions plus a deemed earnings amount from super to assist in purchasing their first home.

From 1 July 2022, the maximum eligible contributions that can be released under this scheme increased from \$30,000 to \$50,000.

1 Age 74 includes the period up to 28 days after the end of the month in which you turn 75.

2 Under general contribution eligibility requirements, any non-concessional contributions would need to be made no later than 28 days after the end of the month in which you turn 75.

# Regulatory changes

## Reduction of eligibility age for downsizer contributions

The downsizer contribution allows people to make a one-off after-tax contribution to super of up to \$300,000 from the proceeds of selling their home they have held for at least 10 years. Under the rules both members of a couple can make downsizer contributions in respect of the same home, and the contributions do not count towards a member’s non-concessional contributions caps.

Previously, you had to be aged 65 or over to make a downsizer contribution. From 1 July 2022, downsizer contribution access has been expanded and you can make a downsizer contribution from age 60 if eligible.

The government has proposed expanding access to downsizer contributions by lowering this eligibility age to 55. As at 5 December 2022, a Bill has passed parliament to implement this change, but it has not yet become law.

## Removal of the \$450 per month minimum Super Guarantee threshold

From 1 July 2022, the \$450 per month minimum Super Guarantee income threshold was removed. Under previous rules, an employer was not required to pay Super Guarantee contributions for an employee in any calendar month where they earned less than \$450.

## Minimum payments for certain pensions remain temporarily reduced

### Account based pensions

Your minimum account based pension payment amount is worked out each year. It is calculated by multiplying your account balance as at 1 July (or the commencement of your pension if commenced during the financial year) by a percentage factor depending on your age.<sup>1</sup>

The minimum drawdown requirements for account based pensions (including pre-retirement pensions) have been temporarily reduced by 50% for the 2019–20 to 2022–23 financial years, as shown in the following table.

Age	Standard minimum percentage factor	Reduced minimum percentage factor (2019–20 to 2022–23 financial years)
Under 65	4%	2%
65 to 74	5%	2.5%
75 to 79	6%	3%
80 to 84	7%	3.5%
85 to 89	9%	4.5%
90 to 94	11%	5.5%
95 or over	14%	7%

1 If you commence your pension on or after 1 June, no minimum pension payment amount is required to be made for that financial year. Otherwise, we must pro rata your minimum pension payment amount in the first financial year of your pension for the number of days remaining in the financial year.

### **Term allocated pensions**

The minimum payment for term allocated pensions has also been temporarily reduced by 50% for the 2019–20 to 2022–23 financial years. Under normal rules, you can choose a pension payment of between 90% and 110% of a standard calculated amount. Under the reduced minimum rules, you can instead choose a pension payment of between 45% and 110% of the calculated amount.

### **Proposed changes to superannuation**

#### **Choice to exit certain legacy income streams**

The previous Morrison Government proposed a two-year window during which you could choose to commute certain otherwise non-commutable legacy income streams (including term allocated pensions) first commenced prior to 20 September 2007.

Under this proposal, you may then be able to use the commuted amount to commence a more flexible income stream such as an account based pension, make a lump sum withdrawal or retain it in a superannuation accumulation account.

At the time of writing, the current Albanese Government has not publicly committed to this change and so it has not been legislated.
